# ABOUT US

Asinoks stainless Metal Industry manufactures stainless water tanks, stainless mixers, and stainless products. It also sells stainless sheet, profile, pipe, rod shaft, and flange. Our company, which has strengthened its technical infrastructure, combines it with its 30 years of experience and provides services to leading companies in its sector throughout Turkey with its expert staff. Since its establishment, Asinoks has adopted the principle of constantly improving and renewing itself, while providing the best service to its customers. Our company attaches importance to product quality. It also has ISO 9001 and CE certificates as quality certificates.

Our company has a management and manufacturing staff that constantly improves itself. It closely follows technological developments that are powerful enough to respond to the needs of the era and customer needs in the best way possible. Our first goal in the near future is to be the dominant company in the modular lightweight construction sector. Our company, which has the ability to do business in various regions of the world, also has the ability to represent our country abroad in the best way possible.

# OUR PRODUCTS

## Our Company's Goal

The priority quality approach will always continue and the importance it gives to the customer will be preserved. It will strive to carry its expert staff and modern production technology even further each passing day. To be a leading PASLANMAZ steel company in Turkey.

# STAINLESS WATER TANK

ASINOKS Stainless Water Tanks are specially designed for safe, hygienic and long-lasting storage of water. Standing out with their corrosion-resistant structure and durability, these tanks offer ideal solutions for industrial, commercial and domestic water storage needs. Stainless water tanks are tanks that preserve the quality of water and ensure its safe storage for a long time.

# STAINLESS PRISMATIC TANK

ASINOKS Stainless Prismatic Tanks are modern storage solutions that stand out with their high durability, efficiency and aesthetic features. Designed to meet the storage needs of your business, these tanks save space while also providing long-lasting and safe use. You can visit our website or contact us directly to get more information about prismatic tanks and determine the most suitable solution for your needs.

## STAINLESS FUEL TANK

Made of high quality Stainless steel, fuel tanks stand out with their long-lasting and durable structures. They are resistant to corrosion and ensure safe storage of fuel. These tanks, which can be produced in different capacities and sizes, are ideal especially for industrial and commercial uses. Thanks to the Stainless material, maintenance requirements are reduced to a minimum.

# STAINLESS REACTOR

ASINOKS Stainless Reactors offer ideal solutions for your industrial processes with their durability, reliability and customizable structure. Designed for applications requiring high performance, these reactors are equipped with features that will best meet the needs of your business.

## STAINLESS OIL TANK

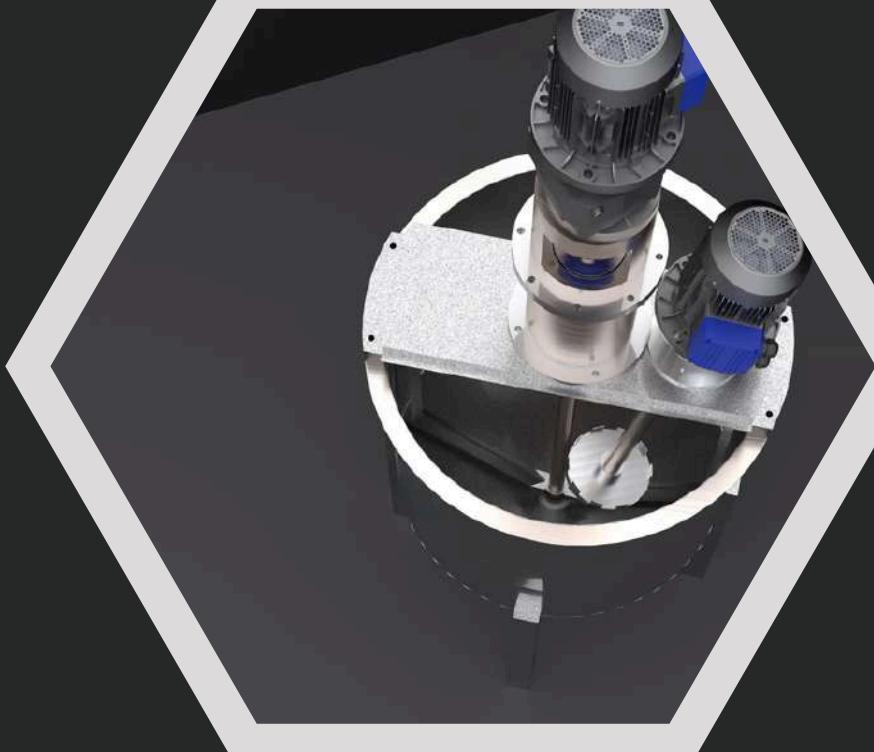

ASINOKS Stainless tanks offer superior quality and durability, meeting the storage needs of your business in the best way. If you are looking for a long-lasting, hygienic and safe storage solution, our Stainless tanks are the ideal option for you. You can examine our tanks with different sizes and features on our website and find the most suitable solution for your needs. Do not hesitate to contact us for any questions you may have.

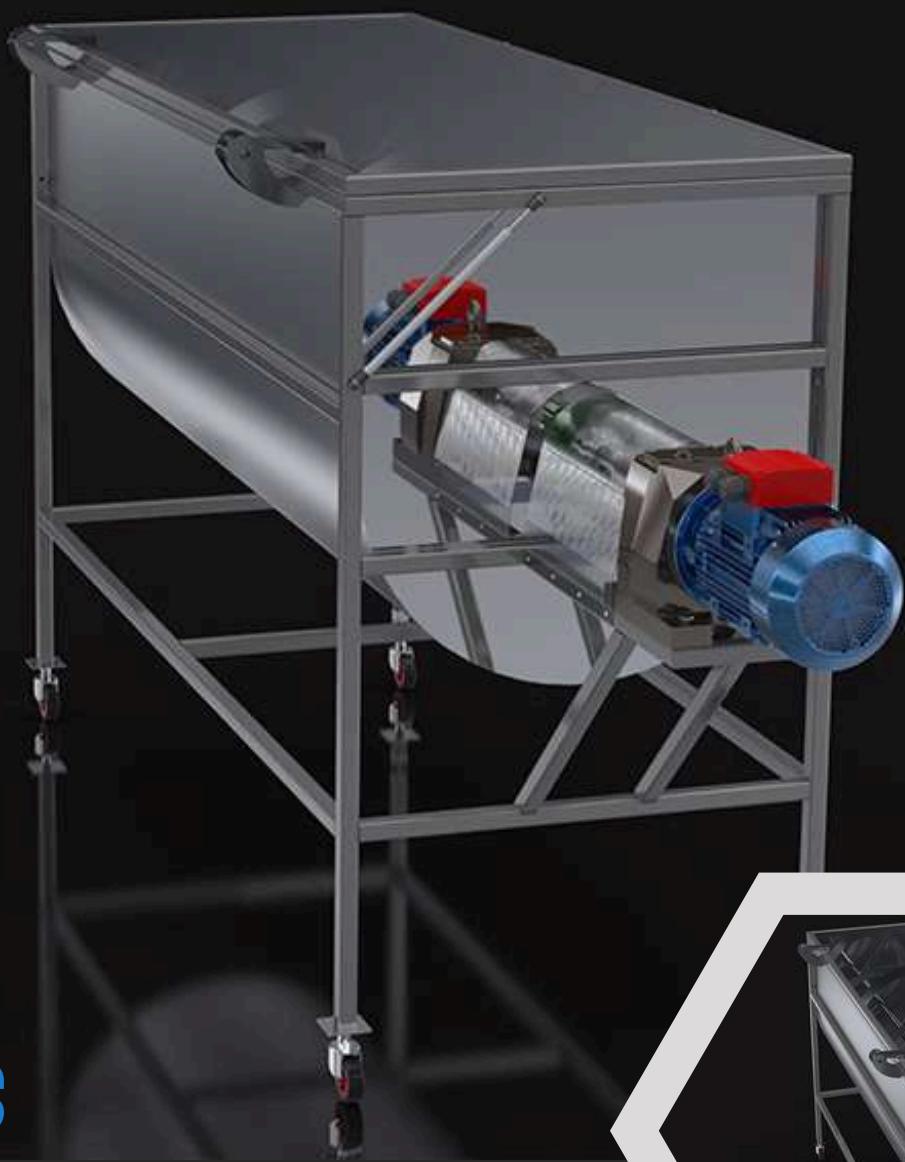

# STAINLESS MIXERS

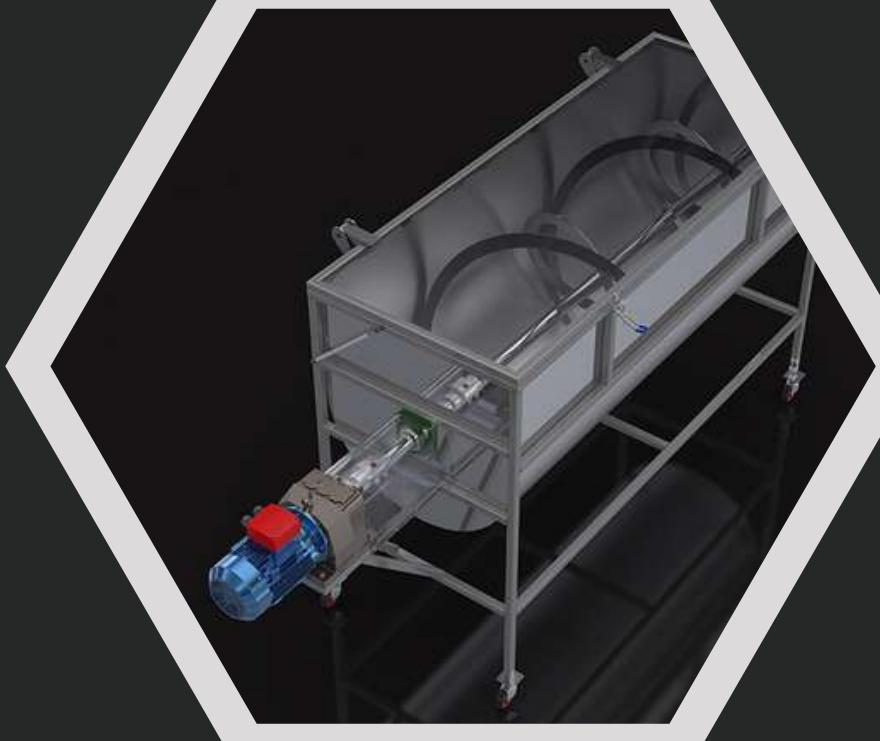

ASINOKS Stainless Mixers are devices that are used in various industrial processes, have high durability and provide efficient mixing processes. These mixers, used in food, chemical, pharmaceutical and many other sectors, offer long-lasting and safe use with their Stainless steel structures.

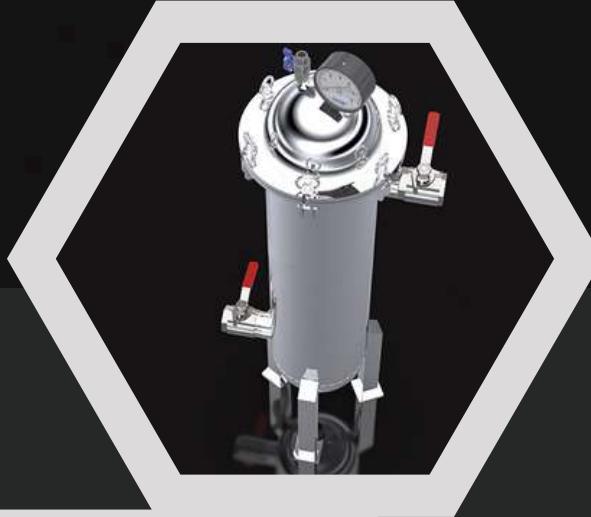

## STAINLESS POWDER MIXER

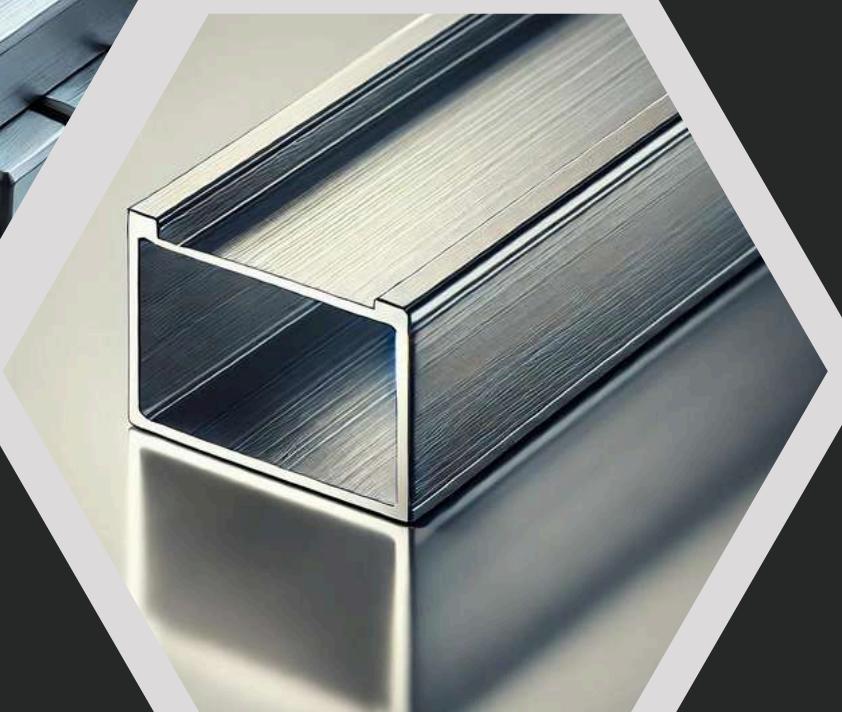

ASINOKS Stainless Powder Mixers are high quality and durable devices that provide homogeneous mixing of powders in different sectors. These mixers used in chemical, food, pharmaceutical and many other industries are made of PASLANMAZ steel and offer long-lasting and reliable performance.

# STAINLESS FILTERS

ASINOKS Stainless Filters provide durable and reliable solutions that provide effective filtration of liquids and gases in industrial and commercial applications. Manufactured from corrosion-resistant Stainless steel, these filters offer high performance and long life in various sectors.

**STAINLESS  
OTHER PRODUCTS**

# CYLINDER HORIZONTAL, VERTICAL TANKS

Cylindrical horizontal and vertical tanks offer excellent solutions for industrial and commercial uses. Horizontal tanks are ideal for storing large amounts of liquid or gas without taking up large areas. Vertical tanks are suitable for applications that require space saving. Both types of tanks are manufactured from Stainless steel for durability and longevity, thus providing excellent resistance to various chemicals and temperatures. Asinoks offers these tanks in customized sizes and capacities, meeting all kinds of needs and increasing the efficiency of businesses.

As Asinoks Stainless Metal Industry, we manufacture our horizontal and vertical tanks using high quality AISI 304 and 316 Stainless steel materials. These materials offer superior resistance to corrosion and abrasion, maintaining their performance even in long-term use. AISI 304 and 316 are the preferred standards especially in the food, chemical and pharmaceutical industries. Thanks to these high quality steels, our tanks are resistant to harsh weather conditions and chemical effects, becoming an uninterrupted and reliable solution partner in our customers' business processes.

# VERTICAL WAREHOUSE DIMENSIONS

Depo Store	Çapı (Diameter of)	Boyu (Length)	Sac Kalınlığı (Sheet Thickness)	Ayak Yüksekliği (Foot Height)
500 litre	75 cm	1000 mm	1,5 mm	25 mm

# WELDED PRISMATIC TANKS

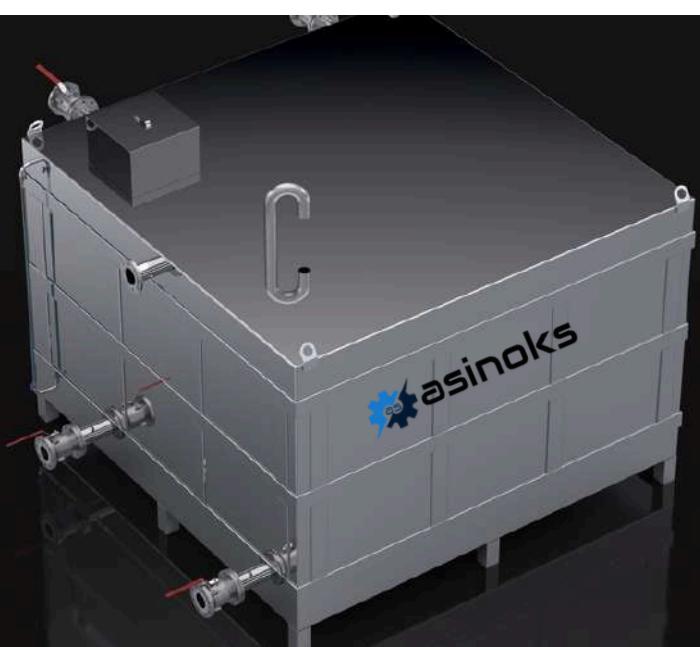

Welded prismatic tanks are ideal for situations where space needs to be used in the most efficient way. These tanks are designed in the form of a rectangular or square prism, allowing maximum use of the available space. Welded prismatic tanks produced by ASINOKS are assembled using high-quality Stainless steel with welding techniques. This method ensures that the tanks are stronger in terms of sealing and structural integrity. Designed for use in various sectors such as food, chemical and water storage, these tanks offer a long-lasting and durable storage solution.

# WELDED PRISMATIC TANK DIMENSIONS

## Thank you for choosing us!

As ASINOKS Stainless Metal Sanayi, we are proud to offer you the highest quality products in the Stainless steel sector. With our 30 years of experience, we are constantly improving and renewing ourselves to offer the most suitable solutions for your needs. If you would like to get more information about our products or contact us for your special projects, we are always at your service.

### Why ASINOKS?

- **High Quality:** Our products are manufactured with our quality registered with ISO 9001 and CE certificates.
- **Expert Staff:** Our expert team is here to offer you the most suitable solutions even for the most complex projects.
- **Reliable Service:** We always prioritize customer satisfaction and work with this principle.
